Lender**10-1 ARM, NO PTS**

This disclosure describes the features of the Adjustable Rate Mortgage (ARM) program you are considering.

- * This loan program has an adjustable rate feature. This means that your interest rate and payment amount can change.

HOW YOUR INTEREST RATE AND PAYMENT ARE DETERMINED

- * Your interest rate will be based on an index plus a margin, rounded to the nearest .125 percent.
- * Your monthly payment will be based on the interest rate, loan balance, and remaining loan term.
- * Your payment will be rounded to the nearest \$0.01.
- * The interest rate will be based on the weekly average yield on United States Treasury securities adjusted to a constant maturity of one year (1 Year Treasury Index) plus our margin rounded to the nearest .125 percent. Ask us for our current interest rate and margin.
- * Information about the index is published weekly in The Wall Street Journal.
- * The initial interest rate is not based on the index used to make later adjustments. Ask us for the amount of the current interest rate premium.
- * Your interest rate will equal the index rate plus margin, rounded to the nearest .125 percent, unless your interest rate "caps" limit the amount of change in the interest rate.

HOW YOUR INTEREST RATE CAN CHANGE

- * Your interest rate can change every 12 months after remaining fixed for 120 months.
- * Your interest rate cannot increase or decrease more than 2.000 percentage point(s) at each adjustment.
- * Your interest rate cannot increase more than 6.000 percentage point(s) above the initial interest rate over the term of the loan.

HOW YOUR PAYMENT CAN CHANGE

- * Your payment can change every 12 payment(s) based on changes in the interest rate after remaining fixed for 120 payment(s).
- * Your monthly payment may increase or decrease substantially based on changes in the interest rate.
- * You will be notified in writing at least 25 days but no more than 120 days before the due date of a payment at a new level. This notice will contain information about your interest rates, payment amount, and loan balance.
- * For example, on a \$10,000 30-year loan with an initial interest rate of 5.875 in effect in October 2009, the maximum amount that the interest rate can rise under this program is 6.000 percentage point(s), to 11.875 percent, and the monthly payment can rise from an initial payment of \$59.15 to a maximum of \$89.97 in the 145th month (12 years, 1 month). To see what your payments would be, divide your mortgage amount by \$10,000; then multiply the monthly payment by that amount (for example, the monthly payment for a mortgage amount of \$60,000 would be: $\$60,000 / \$10,000 = 6$; $6 \times \$59.15 = \354.90 per month).

EXAMPLE

The example below shows how your payments would have changed under this ARM program based on actual changes in the index from 1995 to 2009. This does not necessarily indicate how your index will change in the future.

The example is based on the following assumptions:

Amount of Loan:	\$10,000.00
Term:	30 years
Payment Adjustment:	Every 12 payment(s) after remaining fixed for 120 payment(s)
Interest Adjustment:	Every 12 months after remaining fixed for 120 months
Margin (*):	2.750 percentage point(s)
Caps	
Periodic Interest Rate (increases or decreases):	2.000 percentage point(s) at each adjustment
Lifetime Interest Rate (increases):	6.000 percentage point(s) above the initial interest rate
Interest Rate Premium (**):	2.75 percentage point(s)
Index:	the weekly average yield on United States Treasury securities adjusted to a constant maturity of one year

YEAR As of the first week ending in October	INDEX (%)	MARGIN (%)	INTEREST RATE (%)	MONTHLY PAYMENT (\$)	REMAINING BALANCE (\$)
1995	5.610	2.750	11.125 (L)	96.18	9,956.15
1996	5.610	2.750	11.125	96.18	9,907.17
1997	5.450	2.750	11.125	96.18	9,852.45
1998	4.410	2.750	11.125	96.18	9,791.31
1999	5.240	2.750	11.125	96.18	9,723.02
2000	6.060	2.750	11.125	96.18	9,646.75
2001	2.400	2.750	11.125	96.18	9,561.52
2002	1.550	2.750	11.125	96.18	9,466.31
2003	1.170	2.750	11.125	96.18	9,359.95
2004	2.200	2.750	11.125	96.18	9,241.15
2005	4.080	2.750	9.125 (C)	83.89	9,070.72
2006	4.900	2.750	7.625	75.44	8,849.45
2007	4.120	2.750	6.875	71.52	8,591.59
2008	1.590	2.750	4.875 (C)	62.03	8,258.70
2009	0.390	2.750	3.125	54.72	7,854.38

To see what your payments would have been during that period, divide your mortgage amount by \$10,000; then multiply the monthly payment by that amount (for example, in 2009 the monthly payment for a mortgage amount of \$60,000 taken out in 1995 would be: $\$60,000 / \$10,000 = 6$; $6 \times \$54.72 = \328.32 per month).

* This is a margin we have used recently; your margin may be different.

** This is the amount of a premium that we have provided recently; your loan may have a different premium amount.

(C) This rate reflects a 2.000 percentage point annual cap on decreases.

(L) This interest rate reflects a 2.75 percentage point premium.

This is not a commitment to make a loan.
